

TECHNICAL DATA SHEET

SECURITY TAPE

T&GSS 742-743-744

Technical data

	u. m.	Typical value	Tolerance
Total thickness	µm	160	+/- 10%
Longitudinal tensile strenght	kg/cm	2,5	+/- 20%
Longitudinal elongation at breakage	%	150	100 - 200
Adhesion to steel plate	g / cm	280	>180
Rolling ball tack	cm	1	< 5

Test methods are available on request

Available color	Transveral yellow-black or white red stripes
Adhesive	Natural rubber
Backing	Plasticized PVC
Applications	PVC plasticized adhesive tape for identification of potential danger areas

Guarantee

The product and its functionality are guaranteed for a period of 6 moths from delivery date.

Good resistance to abrasion, corrosion and moisture

Suitable for indoor and protected outdoor enviroments

Excellent conformability

Easy trasversal tearability
